Jason Sendek has worked closely with his mentor, Dr. Robert Josephberg, they are researching the potential for new therapeutic modalities for eye disease, their key objective of this research is to inform other physicians of these innovative approaches and he has been an attending physician at Westchester Medical Center for over 30 years, as well as the Chief of Retina Service for over 20 years. He is currently a senior at Briarcliff High School in Westchester County, NY and will be attending Duke University starting in the fall of 2022.
