

OMICS Group

OMICS Group International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS Group hosts over 400 leading-edge peer reviewed Open Access Journals and organizes over 300 International Conferences annually all over the world. OMICS Publishing Group journals have over 3 million readers and the fame and success of the same can be attributed to the strong editorial board which contains over 30000 eminent

OMICS Group welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS Group follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Teaching Activities:

Research Activities/Interests:

High-Throughput Bioanalytical Chemistry:

Qualitative and quantitative analysis of biologically active compounds in complex biological matrices using LC MS/MS Capillary Electrophoresis HPLC and robotic on line sample preparation systems in support of high throughput DMPK (drug metabolism and pharmacokinetics) and ADMET (absorption distribution metabolism excretion and toxicity) studies-

Drug Metabolism and Pharmacokinetics (DMPK):

Study the expressional regulation and the kinetics of transporters enzymes (phase I and II) and

OMICS Group Open Access Membership
