Abstract Sir Thomas Legge's Aphorisms and Workplace Personal Protective Equipments (PPE) have been used in the prevention of occupational diseases. The knowledge, attitude and utilization of PPE among workers in the workplace has been studied. This study was conducted in the University of Nsukka, Nigeria. A cross-sectional study design was adopted. A total of 163 workers were interviewed. The interview was conducted using a structured questionnaire. The results showed that 132 workers (81%) had knowledge of Sir Thomas Legge's Aphorisms. The mean age of the respondents was 31.2 years. The mean age of the respondents with knowledge of Sir Thomas Legge's Aphorisms was 31.3 years while those without knowledge was 31.1 years. The mean age of the respondents with knowledge of Sir Thomas Legge's Aphorisms was 31.3 years while those without knowledge was 31.1 years.

Keywords Sir Thomas Legge's Aphorisms, Personal Protective Equipment, Knowledge, Attitude and Utilization

Introduction Sir Thomas Legge's Aphorisms and Workplace Personal Protective Equipments (PPE) have been used in the prevention of occupational diseases.

The knowledge, attitude and utilization of PPE among workers in the workplace has been studied. This study was conducted in the University of Nsukka, Nigeria. A cross-sectional study design was adopted. A total of 163 workers were interviewed. The interview was conducted using a structured questionnaire.

The results showed that 132 workers (81%) had knowledge of Sir Thomas Legge's Aphorisms. The mean age of the respondents was 31.2 years. The mean age of the respondents with knowledge of Sir Thomas Legge's Aphorisms was 31.3 years while those without knowledge was 31.1 years. The mean age of the respondents with knowledge of Sir Thomas Legge's Aphorisms was 31.3 years while those without knowledge was 31.1 years.
