

Editorial Note: The Archives of Journal of Oncology Research and Treatment, Omics online publication, We are an organization that amalgamates Open Access Publications and International science events for the benefit of the global scientific community. The organization was established in the year 2007 with the sole aim of providing a platform for “Open Access” to the research information pertaining to diversified fields of Science and technology. We publish scholarly journals that can be easily accessed online without paying any subscription charges. Our organization plays an instrumental role in expanding the reach of research data in the real time, which in turn helps in furthering the research. Research Scholars, Students, Libraries, Educational Institutions, Research centres and industries are the main stakeholders that are benefited from open access to research data. We also organize 3000+ International conferences across the globe, where knowledge transfer takes place through debates, round table discussions, poster presentations, workshops, symposia and exhibitions.

For the last 4 years, published papers have been under the strong and able leadership of our Editor-in-Chief’s Sang Ngoc Nguyen. Especially, we are thankful to for his continuous support and dedication towards the journal will not lost. We the publication office of Journal of Oncology Research and Treatment including me, we all are very honoured and grateful for his selfless devotion towards the journal.

We provide a rapid turn-around time possible for peer reviewing and publishing the article online and to disseminate the articles freely for research, teaching and reference purposes.

Scope of the Journal: The scope includes Journal of Oncology Research and Treatments is an Open Access publishing that aims to focus on the most complete and reliable source of information on discoveries and current developments as original article, review articles, case reports,

short communications, etc. related to Cancer research and therapy d
