## Exploring Parental Perceptions and Attitudes towards Childhood Stuttering

Department of Speech and language pathology, West Virginia University, Morgantown, West Virginia, USA

The study's goal was to see how closely assessed stuttering attitudes on two new measures, the ASE and the POSHA-S/Child, corresponded to a known measure, the POSHA-S. Second, it intended to ascertain the extent to which  $|\mathfrak{A}|^{k} = |\hat{\mathcal{A}}|^{k} = |\hat$
