Abstract

Submission of an Article In order to reduce delays, authors should adhere to the level, length and format of the OMICS International Journals at every stage of processing right from manuscript submission to each revision stage. Submitted articles should have a 300 words summary/abstract, separate from the main text. The summary should provide a brief account of the work by clearly stating the purpose of the study and the methodology adopted, highlighting major findings briefly. The text may contain a few short subheadings of no more than 40 characters each.

Formats for OMICS International Contributions OMICS International accepts various formats of literary works such as research articles, reviews, abstracts, addendums, announcements, article-commentaries, book reviews, rapid communications, letters to the editor, annual meeting abstracts, conference proceedings, calendars, case-reports, corrections, discussions, meeting-reports, news, obituaries, orations, product reviews, hypotheses and analyses.
