Impact of Corona Virus on Psychiatric Disorders

Department of Psychology, City University of Seattle in Canada, Edmonton, Canada

Abstract

The severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) has been linked to 121 214 686 cases worldwide and 2 680 740 deaths as of March 18, 2021, according to World Health Organization and Johns Hopkins University reports. Since the virus is deeply neurotropic and neuroinvasive, it is generally accepted that this infection
