Citation: Stahl P (2023) Review on Clear Observation on Orthotopic Dcd L100Dcd.6(w.

Animal Experimentation approved the use of pig livers in the ex vivo experiments, which were carried out in accordance with its Guidelines for the Use of Animals (IVT21-51). e pigs were adolescent, female, 3-way crossover pigs (Landrace, Huge White; 40-45 kg). In order to administer reagents and collect blood, cannulation tubes were inserted

Handwritten notes and symbols, including mathematical expressions and diagrams, scattered across the page. Some legible fragments include:
