### Abstract

-DSDQ LV D FRXQWU\ ZLWK D ULFK FXOWXUDO KHULWDJH DQG LWV DUFKLWHF architecture is known for its beauty, simplicity, and attention to detail. In this article, we will take a closer look at the history and characteristics of Japanese architecture.

**Keywords:** Japanese architecture; Building; Concrete

### Introduction

The earliest form of Japanese architecture can be traced back to the Jomon period, which lasted from around 14,000 BC to 300 BC. During this time, people built pit dwellings and houses made of woven branches and grass. The Yayoi period, which lasted from 300 BC to 300 AD, saw the introduction of rice cultivation to Japan. This led to the
