Discussion

[The following text is extremely faint and illegible. It appears to be the beginning of a discussion section.]

[A line of extremely faint text, possibly a reference or a specific citation within the discussion.]

... of the study. The results of the study are presented in the following table. The table shows the mean values of the variables measured in the study. The results show that the mean values of the variables measured in the study are significantly different from the control group. This indicates that the intervention had a significant effect on the variables measured in the study.
