

# Gambling-Related Harms

”

LGBTQ+ individuals have unique daily stressors that lead to problem gambling

“

Gambling has been a release to get away from life in general.GB

## Harms will proliferate among LGBTQ+ communities unless this is addressed

There is a statistically significant relationship between distress caused by life stressors among

“

The LGBT community are more likely to have issues with addiction, because of our lives, because of homophobia, because of the way society looks down on non-conformity.
